25	Suspense Budget Section-5 Sewerage Construction	141 - 143
26	Suspense Budget Section-6 Maintenance	145 - 147
27	Bulk issue rate of Water Bulk and Sewerage	149 - 155

DELHI JAL BOARD

Presentation of Budget by Chief Executive Officer, DJB

Madam Chairperson and Members of DJB,

1. As envisaged under Section 65 of the Delhi Water Board Act, 1998, the Budget for the financial year 2013-14 has been framed. I place the same before the Board for approval. Once approved, we shall forward DJB's Budget to the Government of NCT of Delhi.
2. **INTRODUCTION** - The Budget is prepared in two parts mainly: (i) Non Plan / Revenue Budget (ii) Plan/ Capital Budget to separate operating expenses from capital expenses. Non Plan Budget captures income and operating expenditure of DJB. Our income comes from revenue receipts from internal resources and administrative and finance charges. Revenue receipts comprise of water charges from consumers, cost sharing with NDMC and MES for water and sewerage services, infrastructure charges and other miscellaneous receipts. Non Plan expenditure is mainly on establishment costs (salary, pension, etc), electricity costs and property tax. Capital Budget consists of capital receipts and plan expenditure. The main items of capital receipts are loan and grants-in-aid from Government of NCT of Delhi, funding from central government schemes, like Jawaharlal Nehru Urban Renewal Mission (JnNURM) and Yamuna Action Plan (YAP) and externally aided projects under JICA. The estimates of the Non Plan, Plan Budget and Suspense(Inventories, Advance, Deposits and Purchases) are divided into 4 parts as follows :-

Part-A -Water

Section-I Administration

Section-II-Water Bulk (WTP)

Section-III-Water Construction/Planning (W)

Part-B-Sewerage

Section-I Sewerage Bulk (STP)

Section-II-Sewerage Construction/Planning (Dr)

Part-C-Maintenance

Section-I- Water & Sewerage Maintenance

Part-D-Grant

Section-I- Grant

Provision of high quality water supply and sanitation services for all the residents including the poor is critical to enhance economic productivity. Delhi is the national political epicenter and a major commercial & industrial destination. With rapid

urbanization, climate change and rise in the density of population in Delhi, it is an ever increasing challenge to deliver adequate and sustainable water supply and sewerage services to the citizens.

- For raw water supply, Delhi is dependent on its neighboring states of Haryana and UP, which regulate the water flows. DJB is currently producing 835 mgd (including 100 mgd from ground water resources) to meet the demand of about 18 million people.
- Till the summer of 2006, there was an acute shortage of water. With the commissioning of Sonia Vihar Water Treatment Plant (WTP) of 140 MGD in September, 2006, there has been a substantial improvement in water availability in South and East Delhi areas. In the year 2008, with the intervention of Hon'ble Supreme Court it became possible for DJB to fully commission its Nangloi WTP thus raising its production level from 20 MGD to 40 MGD. This benefitted the areas in North West & South West Delhi. DJB has also commissioned its three innovative recycling process waste water treatment plants at Haiderpur, Wazirabad and Bhagirathi which added another 30 MGD to the total production volume.
- Besides increasing the availability of water to meet the domestic needs, a number of underground reservoirs (UGRs) with booster pumping stations have been constructed and commissioned all over the city to improve distribution network and manage water supply in far flung areas. Each year about 200 kms of old pipelines are being replaced while 300 kms of new pipelines are being laid to cover additional areas.

- Water tariff has been rationalized in a manner which promotes conservation of water and avoids wastage. This rationalization has enabled DJB to meet its operation & maintenance costs during the last three years.
- Special emphasis has been laid on accurate water accounting. Procurement and installation of efficient water meters, which meet international standards has resulted in reduction of Non Revenue Water (NRW). The past three years have witnessed a downward trend in NRW. DJB has introduced the concept of district metering areas (DMAs) in 3 pilot project areas, to further improve water accounting. This will thereafter be extended across Delhi.
- For rationalized supply, efficient water accounting needs to be supported by installation of meters at the consumer end. Accordingly, all the water connections are sanctioned with meters. As on date, the number of registered consumers stands at 19.65 lacs. Over the past 5 years, DJB has procured and installed 4 lac domestic water meters meeting international standards and having a guarantee period of 5 years. This has not only improved water accounting but has also introduced transparency in billing. DJB in its constant endeavor to reduce NRW, is further procuring and installing 8 lac domestic water meters. Tenders for procurement of 4 lac water meters in the first phase have already been received.
- Three pilot projects based on the PPP model in the command areas of Malviya Nagar UGR, Nangloi WTP, Mehrauli Township, Vasant Vihar and its adjoining areas are now under implementation. These have been designed to move from an

intermittent water supply system to a continuous (24 x7) water supply regime, to reduce NRW and to improve the quality of water supplied.

- For bringing in more efficiency in the tanker service, 400 new water tankers fitted with stainless steel containers and GPS have been procured. A mechanism designed by DIMTS will monitor the movement of the newly designed tankers through GPS. This will ensure accurate and timely delivery at the consumer's end.
- The old water treatment plant of Chandrawal is being renovated. A loan agreement has been signed with JICA for renovation of Chandrawal and its command area. This upgradation is expected to significantly improve water use efficiency.
- DJB has 34 wastewater treatment plants at 20 locations with an installed capacity of 544 MGD which will further increase to 628 MGD during 2013-14 after commissioning of STPs at Yamuna Vihar (25MGD), Kondli(45 MGD) and Kapashera (5 MGD), and Chilla (9 MGD).
- Ministry of Environment and Forest with JICA had sanctioned five major projects under Yamuna Action Plan -II amounting to Rs.387.17 cr for DJB. DJB liaisoned with National Council for Science Museums (NCSM) for developing Water & Waste Water Museum through YAP- II funding. NCSM has commissioned the Museum on 2000 sqft built up space within NSC complex.
- Further rehabilitation of existing sewer network, sewerage treatment plants and pumping stations is being proposed in 3 sewerage zones of Kondli, Okhla and Rithala under YAP – III for improving conveyance efficiency of sewer network and for enhancing treatment effectiveness.

- To ensure optimal utilization of all STPs, DJB has already undertaken rehabilitation of its critical trunk sewerage network in different packages. New Trunk Sewers have been laid to extend sewerage facilities to new areas (Unauthorized/ Regularized Colonies, Urban Villages, Unauthorized Colonies etc.). Some of these are Trunk Sewers along Wazirabad Road in East Delhi, East Punjabi Bagh and Raja Garden. Most of these works have been completed, and this will have a positive impact on the capacity utilization of all STPs, especially in North and West Delhi.
- DJB is gradually extending sewerage system to all the unsewered areas in Delhi. All unsewered areas have been mapped in detail in the Sewerage Master plan 2031 and sewerage network is being extended to these areas based on technical feasibility.
- An MoU has been signed with Govt. of Singapore to provide consultancy in setting of a 40 MGD Sewage treatment plant at coronation pillar which will treat the sewage to a tertiary level so that the same can be mixed with raw water & reused.
- With the implementation of the new Revenue Management System (RMS), billing and payment mechanism has become more consumer friendly. A consumer can access the billing data on DJB website and also make online payments. Facilities to use credit / debit / net banking are now available to the registered consumers.
- DJB has laid considerable emphasis on capacity building within the organization. A number of training programs were conducted internally for honing the technical as well as the soft skills of DJB employees. Besides this, a numbers of officials

were sent for trainings conducted by reputed national and international institutions and agencies. In 2013-14 also, DJB proposes to conduct training programs on various issues which enhance the productivity of the employees and helps the employees in extending better services to the consumers.

- DJB has constantly endeavored to engage with all the stakeholders at various platforms so as to ensure participative governance. DJB has collaborated with various Non Government Organizations (NGOs) to raise awareness on water conservation and sanitation. Further, it has coordinated closely with the general public and RWAs through bhagidari workshops so that their concerns are duly addressed in the decision making as well as in the implementation of schemes and projects.
- Tariff regulations have been notified, introducing greater transparency in billing and metering systems.
- DJB is in the process of finalizing its strategic IT road map and further plans to implement a holistic ERP module to improve organizational effectiveness. In order to achieve this objective, the required infrastructure base of hardware and software is also being upgraded.
- In 2012-13 E-tendering system was extended to all Divisions for ensuring greater competition and transparency.

3 REVENUE EXPENDITURE & DEFICIT-

Estimated expenditure (excluding depreciation and interest) is Rs. 1848.86 cr for 2013-14 against expenditure of Rs. 1679.55cr in RE 2012-13. This is due to higher establishment costs due to implementation of the 6th Pay Commission report, electricity charges, and consumables, chemicals, stores etc. The net cash revenue surplus has increased in the last 4 years, from Rs. 40.56 cr in 2007-08 to expected surplus of Rs. 233.57 crore during 2013-14. DJB has started repayment of loan and paid Rs.81.36 crore during 2011-12. Further, proposal is to pay Rs. 205.04 crore (including interest of Rs.124.58 crore) and Rs.428.22 crore (including interest of Rs.261.92 crore) during 2012-13 and 2013-14 respectively.

The income estimated for financial year 2013-14 would be able to cover only the operating costs, excluding interest liability of Rs. 1848.86 crore, there will be a need for non plan support in the shape of Grant-in-aid from Government of NCT of Delhi for payment of interest on loan. The Gross Deficit is estimated to be Rs.2463.30 crore during 2013-14 and the cash surplus is projected to be Rs.233.57 crore after postponing of interest liability of Rs.2472.05lac and deducting depreciation of Rs.224.82 crore.

Budget Estimates for Non Plan in 2013-14 have been framed, after taking into consideration actuals of 2011-12, cumulative figures up to December 2012 and anticipated receipts and expenditure during the year 2012-13 as follows:-

NON PLAN BUDGET (Rs cr)

S.No.	Head of Accounts	Actual 2010-11	Actual 2011-12	BE 2012-13	RE 2012-13	B.E. 2013-14
Income						
1	Revenue Generation	1325.04	1911.94	1796.17	2145.35	2082.43
2	Non-Plan assistance	-	-	-	-	-
	a. Adjusted against interest	2064.00	-	-	-	-
	b. Actual received	-	-	-	-	-
3	Total income	3389.04	1911.94	1796.17	2145.35	2082.43
Expenditure						
4	Actual Expenditure	1243.68	1383.64	1548.43	1679.55	1848.86
5	Interest on Loan	2063.65	2210.51	2343.26	2343.26	2472.05
6	Depreciation	218.75	223.72	224.82	223.72	224.83
7	Total Expenditure	3526.08	3817.87	4116.51	4246.53	4545.74
8	Gross Deficit (3-7)	-137.04	-1905.93	-2320.34	-2101.18	-2463.31
9	Interest on loan due and Depreciation	218.40	2433.86	2568.08	2566.98	2696.88
10	Net Cash deficit(-)/ Surplus (+)=(8+9)	81.36	527.93	247.74	465.80	233.57

DJB has constantly endeavored to increase its revenue receipts and to control its operational expenditure so as to achieve financial sustainability of its operations. DJB's dependence on the Government for operational costs has been reduced from Rs. 380 cr in 2009 – 10 to zero in 2013-14.

4 FINANCE & ACCOUNTS: DJB switched over to Double Entry Accrual based accounting system in 2003 - 04 vide the Board resolution in July 2004. The accounts of 2003 – 04 in revised formats and the balance sheet have been approved by the Board in February 2010. In 2012-13 DJB finalized the balance sheet for the years 2003-04 to 2006-07 which have been audited by CAG for certification. In 2013- 14, DJB will finalize all the accounts for the years 2007-08 to 2009- 10 in accrual based accounting system bringing it up to date.

Computerization of accounts has also been put in place. DJB has shifted to upgraded ERP version of Tally software for proper accounting on day-to-day basis. DJB has also engaged a chartered accounting firm for regular support for accounting and reassessment of inventory /fixed assets. DJB will also fine-tune, update and integrate all its software modules for Financial and budget management, Employee Information System (Pay roll, Pension, GPF of 21,000 employees) during 2013-14.

After intensive persuasion with DERC, DJB has been granted a special tariff rate considering water supply as an essential service. This has resulted in substantial savings in the annual expenditure on power .

Due to the persistent efforts of DJB, the Ministry of Finance, Govt of India has considered water supply and sewerage projects for exemption from service tax. This has also resulted in considerable savings in the cost of the projects undertaken by DJB.

- 5 **CAPITAL / PLAN** - For undertaking Plan Works in 2013-14, the Government has approved financial assistance of Rs.1665.00 cr. The project of modernization of the Chandrawal WTP and its command areas has been sanctioned for an amount of Rs 2018.00 cr as externally aided project under JICA funding. Central assistance of Rs.204.35 cr for YAP-III projects has been sanctioned. DJB has already received sanction from Government of India for its sewerage projects under JnNURM for Rs. 1896.35 cr(Rs.1357.71 cr for interceptor sewers, Rs. 285.11 cr for STP at Nilothi, Pappankalan and SPS at Possengipur and Rs.253.53 cr for rehabilitation of Trunk sewers). DJB will further pursue central funding for its major projects for new STPs, rehabilitation of water mains, bulk metering, household survey and revamping of water networks in more areas in 2013-14. The Plan works in water and sewerage sectors include arrangements for raw water, construction of water treatment plants, expanding water mains in unconnected areas (regularized/ unauthorized colonies), replacement of old water lines, strengthening of transmission network, extensive bulk metering (flow, Pressure, energy, quality and UGR levels), providing of new sewer lines, replacement of corroded / undersized branch sewers, rehabilitation of trunk & peripheral sewer network by adopting advanced technologies, construction of SPSs and the interceptor sewer project etc. Based on the total allocation on plan side, further sector wise distribution is as under:-

Name of Sector	Amount (Rs. cr)
Water	
Loan	637.00
Grant-in-aid	172.20
Total	809.20
Sewerage	
Loan	447.00
Grant-in-aid	327.80
Total	774.80
Other(Grand-in-aid)	81.00
Total GNCTD support for Plan projects	1665.00
Central Share for YAP-III	204.35
Total	1869.35

DJB's vision is to provide safe water supply and sewerage services in an equitable, efficient and sustainable manner. Maintaining good quality of water supply, reduction of non-revenue water, efficient water auditing, augmentation of water supply, metering, rain water harvesting, recharge of water bodies and leakage detection and control will be the priority areas. In sewerage sector, optimum utilization of sewage treatment capacity, rehabilitation of sewerage system, abatement of pollution of Yamuna River and extension of sewerage facilities to unsewered areas will be the priority areas. Accordingly, following actions are proposed to be taken during the financial Year 2013-14:-

A –Water Sector

RAW WATER ARRANGEMENTS

Munak canal has been constructed at a cost of Rs. 520 crores by Haryana Irrigation Department against deposits from DJB. For augmentation of potable water, additional raw water supply of about 80 MGD will become available to Delhi through the Munak canal. This will facilitate commissioning of three newly constructed WTPs at Dwarka (40 MGD), Okhla (20 MGD) and Bawana (20 MGD). The issue of availability of additional raw water supply to Delhi on account of enroute savings in seepage losses is being pursued with Govt. of India and Haryana state and is expected to be resolved soon.

To bridge the gap of around 200 MGD in raw water needs, DJB has been pursuing the matter of construction of 3 upstream storage dam projects (Renuka, Kishau and Lakhwarvayasi) on River Yamuna in close cooperation with other basin states.

Of these, the Renuka dam project will provide Delhi around 275 MGD of water as per 1994 MoU. The project awaits environmental clearance. DJB has paid Rs. 214.83 cr to Himachal Pradesh for conducting initial studies and for land acquisition. All the 3 projects have been declared National Projects recently by the Government of India. DJB will strive to expedite the commencement of construction of Renuka dam by persuading Government of India and the basin states.

DJB has completed the construction of raw water link mains from Haiderpur to Wazirabad at an estimated cost of Rs. 270 crores. It will make it feasible to transfer raw water from one plant to the other. These gravity raw water link mains will also be commissioned after receiving additional raw water through Munak canal. The connected works of construction of raw water pump house at Wazirabad, the pumping main and 20 mgd Okhla WTP have also been completed.

WATER TREATMENT PLANTS:

Rehabilitation and installation of SCADA at 100 mgd WTP at Bhagirathi is currently under way. Once it is completed, it will ensure peak production efficiency. The WTP at Chandrawal is more than sixty years old and needs rehabilitation. DJB has initiated a project proposal for complete rehabilitation of Chandrawal WTP and its command areas. The objective of the project is to improve the existing water supply infrastructure with an aim to ensure equitable water distribution in the command area, replacing intermittent supply system with continuous (24/7) system and to achieve NRW targets as per the MoUD guidelines. The project is being funded by JICA. The loan agreement with JICA has already been effectuated. The PMU consultant is being appointed to proceed further for implementation.

SYSTEMIC IMPROVEMENTS:

A special thrust has been given to improve the existing water supply infrastructure by constructing additional WTPs, new UGRs with pumping stations, replacing old transmission mains especially of PSC which have outlived their useful life. For a rationalized distribution in the city, the infrastructure is being expanded in a planned manner to meet the demand both in the planned and in the unplanned colonies. With the commissioning of new reservoirs, 87 primary / major UGRs with pumping stations are functioning and 7 more are ready for augmenting the storage capacity in 2013-14. Each year about 300 kms of old pipelines are replaced with new pipes. This year also, it is proposed to lay around 250 kms of new pipelines to replace the old ones. Direct and illegal tappings are being removed carefully in a phased manner by making substitute arrangements. This has improved the hydraulics of the system and as a result the supply can now reach many tail end areas.

PROVIDING WATER SUPPLY INFRASTRUCTURE IN UNAUTHORISED COLONIES:

DJB has been striving to improve access of urban poor to piped water supply. While taking up new initiatives for improving the network technically and hydraulically, considered view has been that all sections of society living both in planned and unplanned areas are covered. Now piped water supply facility stands extended to 800 unauthorized colonies also in addition to the other areas. The colonies which are yet to be provided with the planned network, continue to be served through tube wells and tanker service.

Three pilot projects based on PPP model of management contracts for improving the water services in the command areas of Malviya Nagar UGR, Mahrauli-Vasant Vihar colonies, Nangloi WTP and its command areas were initiated after seeking approval from the Planning Commission. In these pilot projects, performance indicators / bench marks based on the Ministry of Urban Development, Govt of India guidelines are required to be achieved in fixed timelines. The ultimate objective is to transform the system from the existing intermittent water supply to a continuous water supply (24 x 7) and bring down NRW.

B- Sewerage Sector

DJB has 34 wastewater treatment plants at 20 locations with an installed capacity of 544 MGD, which will be increased to 628 MGD during 2013-14 after commissioning of STPs at Yamuna Vihar (25MGD), Kondli (45 MGD) and Kapashera (5 MGD), Chilla (9 MGD).

DJB has a network of 7000 km of sewers with 196 km of trunk sewer network and about 1508 km of peripheral sewer network. There are 42 major Sewage Pumping Stations across Delhi. Ever since inception, DJB has striven to augment sewage treatment capacity. From 334 MGD in 1998 the sewage treatment capacity increased to 544 MGD by 2012-13. As the estimated wastewater generation is 680 MGD, DJB will make further efforts to increase its capacity to treat sewage which will be trapped through the interceptor sewers.

The existing sewerage treatment plants (STP) are not being currently utilized to their optimum capacity due to blockage of sewers, settling of old and deteriorated

sewers and extensive unsewered areas. Only around 54 % of the population is connected to this sewerage network. Thus, of the estimated 680 MGD of wastewater generation, only 350 MGD is getting treated at wastewater treatment plants which have installed capacity of 544 MGD.

In recent times, the sewerage services have been under severe strain in the wake of explosive unplanned growth. The obvious manifestations are the increasing generation - treatment gap, leading to discharge of untreated waste water into the river Yamuna.

As is apparent, the sewerage services need to be enhanced by improving network coverage, transmission and treatment efficiencies and metering / zonal data. Hence, DJB is working on the following initiatives for better sewerage facilities for the capital:-

SEWAGE TREATMENT PLANTS : As the estimated wastewater generation is 680 MGD, DJB is augmenting capacity by 84 MGD through 45 MGD STP at Kondli, 25 MGD STP at Yamuna Vihar and 9 MGD at Chilla ,5 MGD STP at Kapashera by 2013 and thereby raising the installed capacity to 628.72 MGD. About 84% of construction work at 25 MGD Yamuna Vihar STP, 99% of 45 MGD STP at Kondli, 73% of 5 MGD STP at Kapashera and 48% of 9 MGD STP at Chilla has been completed.

YAMUNA ACTION PLAN PHASE-II : Ministry of Environment and Forest with JICA had sanctioned five major projects under Yamuna Action Plan -II for DJB amounting to Rs.387.17 cr :-

- a) Rehabilitation of Ring Road Sewer
- b) Reconstruction of Bela Road sewer
- c) Construction of Wazirabad Road sewer
- d) Construction of 30 MGD STP at Okhla
- e) Rehabilitation of Keshopur STP

Out of the above mentioned works, four have been completed and the work of Keshopur STP is in progress. DJB has engaged NGOs for developing public awareness on hygienic sanitation and solid waste management practices. DJB collaborated with National Council for Science Museums (NCSM) for developing Water & Waste Water Museum through YAP- II funding. Museum built up on 2000 sqft built up space within the NSC complex is open for public.

MODERNIZATION & REFURBISHMENT OF STP / SPS - The STPs at Keshopur, Okhla, Kondli, Coronation Pillar and Rithala and also the SPSs at Kilokri, Ring Road, Keshopur, Haiderpuri, Jagriti and Preet Vihar are quite old. Refurbishment & modernization of existing sewer network, Sewage Treatment Plants and Pumping Stations for improving conveyance efficiency of sewer network and for enhancing treatment effectiveness and quality is being proposed in 3 sewerage zones of

Kondli, Okhla and Rithala STP under YAP – III. The output parameters of these plants are also being upgraded. The 50 MGD SPS and the 90 MGD treated effluent Pumping Station at Yamuna Vihar have been commissioned.

TRUNK SEWERS: There is a network of 196 km of trunk sewers in Delhi, some of which needed repairs. Rehabilitation of 100 kms has been completed. Some of the major trunk sewers which have been rehabilitated are Ring Road, University, North, West Delhi Relieving Trunk Sewer, Punjabi Bagh, Jail Road and Bela Road Sewer. To extend sewerage facilities in new areas some of the Trunk Sewers along Wazirabad Road in East Delhi, East Punjabi Bagh and Raja Garden have been laid. Majority of these works have been completed, and this will have a positive impact on the capacity utilization of all STPs, especially in North and West Delhi.

SEWERAGE FACILITIES IN UNSEWERED AREAS - DJB is gradually extending sewerage system to all the unsewered area. DJB has covered 541 regularized colonies, 129 urban villages, 34 rural villages. Out of 1639 colonies, sewerage facility has been provided in 98 colonies.

For works of construction of STP/ WSP/ SPS, issues pertaining to land allotment are being pursued with DDA, Revenue & Land & Building departments.

INTERCEPTER SEWER:

An innovative solution to deal with the pollution in river Yamuna was evolved by DJB and has been widely endorsed. This involves laying of interceptor sewer along the Najafgarh Drain, Supplementary Drains and Shahdara Drain(total length 59 kms). The project was appraised by CPHEEO and recommended to the Ministry of Urban Development for sanction of Rs. 1357.71cr under JnNURM. The interceptor sewer is being laid along these drains below the bed level of the drains and all the sub drains carrying wastewater from unsewered areas will be trapped and conveyed to the existing STPs. The project has been designed in such a way that the interceptor sewer will work as the trunk sewer for the presently unsewered areas in the long run. The works under six packages have been awarded to three agencies in July, 2011 and the project is likely to be completed by June 2014.

REPLACEMENT OF UNDERSIZED SEWER: The existing sewerage conveyance system is a large network of branch, peripheral and trunk sewers of around 7000 km in length. Undersized/ damaged branch sewers are being replaced. During 2012-13, 59 kms of damaged/ undersized sewers have been replaced till Jan. 2013. In 2013-14, further 70 kms of old sewers are proposed to be replaced with new lines.

DJB is already supplying 142.4 MGD of treated effluent for horticulture/irrigation purposes. The potential for further using treated effluent from existing as well as proposed Sewage Treatment Plants is being explored.

Conclusion

For the year 2013-14, total Plan budget of Rs.1665.00 crore has been proposed for Water and Sewerage sectors. Out of this, budget of Rs. 890.20 cr is for Water sector (including Grant-in-aid of Rs.0.20 cr for rainwater harvesting, Rs.0.80cr for JJ Clusters and Rs. 80.00 cr for Water Supply in Unauthorized colonies) and Rs.774.80 cr for Sewerage sector which includes Rs. 336.80 crore for JnNURM projects. Besides, Rs.204.35 cr will be received from central Government (Share) for YAP-III projects.

Delhi's population has grown at a rapid pace in the past decade and a half. It has been a constant challenge for DJB to keep pace with rapid increase in population and to expand water & sewerage infrastructure & services, despite limited water resources. DJB however, remains committed towards achieving the vision of universal safe water supply and sewerage services in an efficient and sustainable manner.

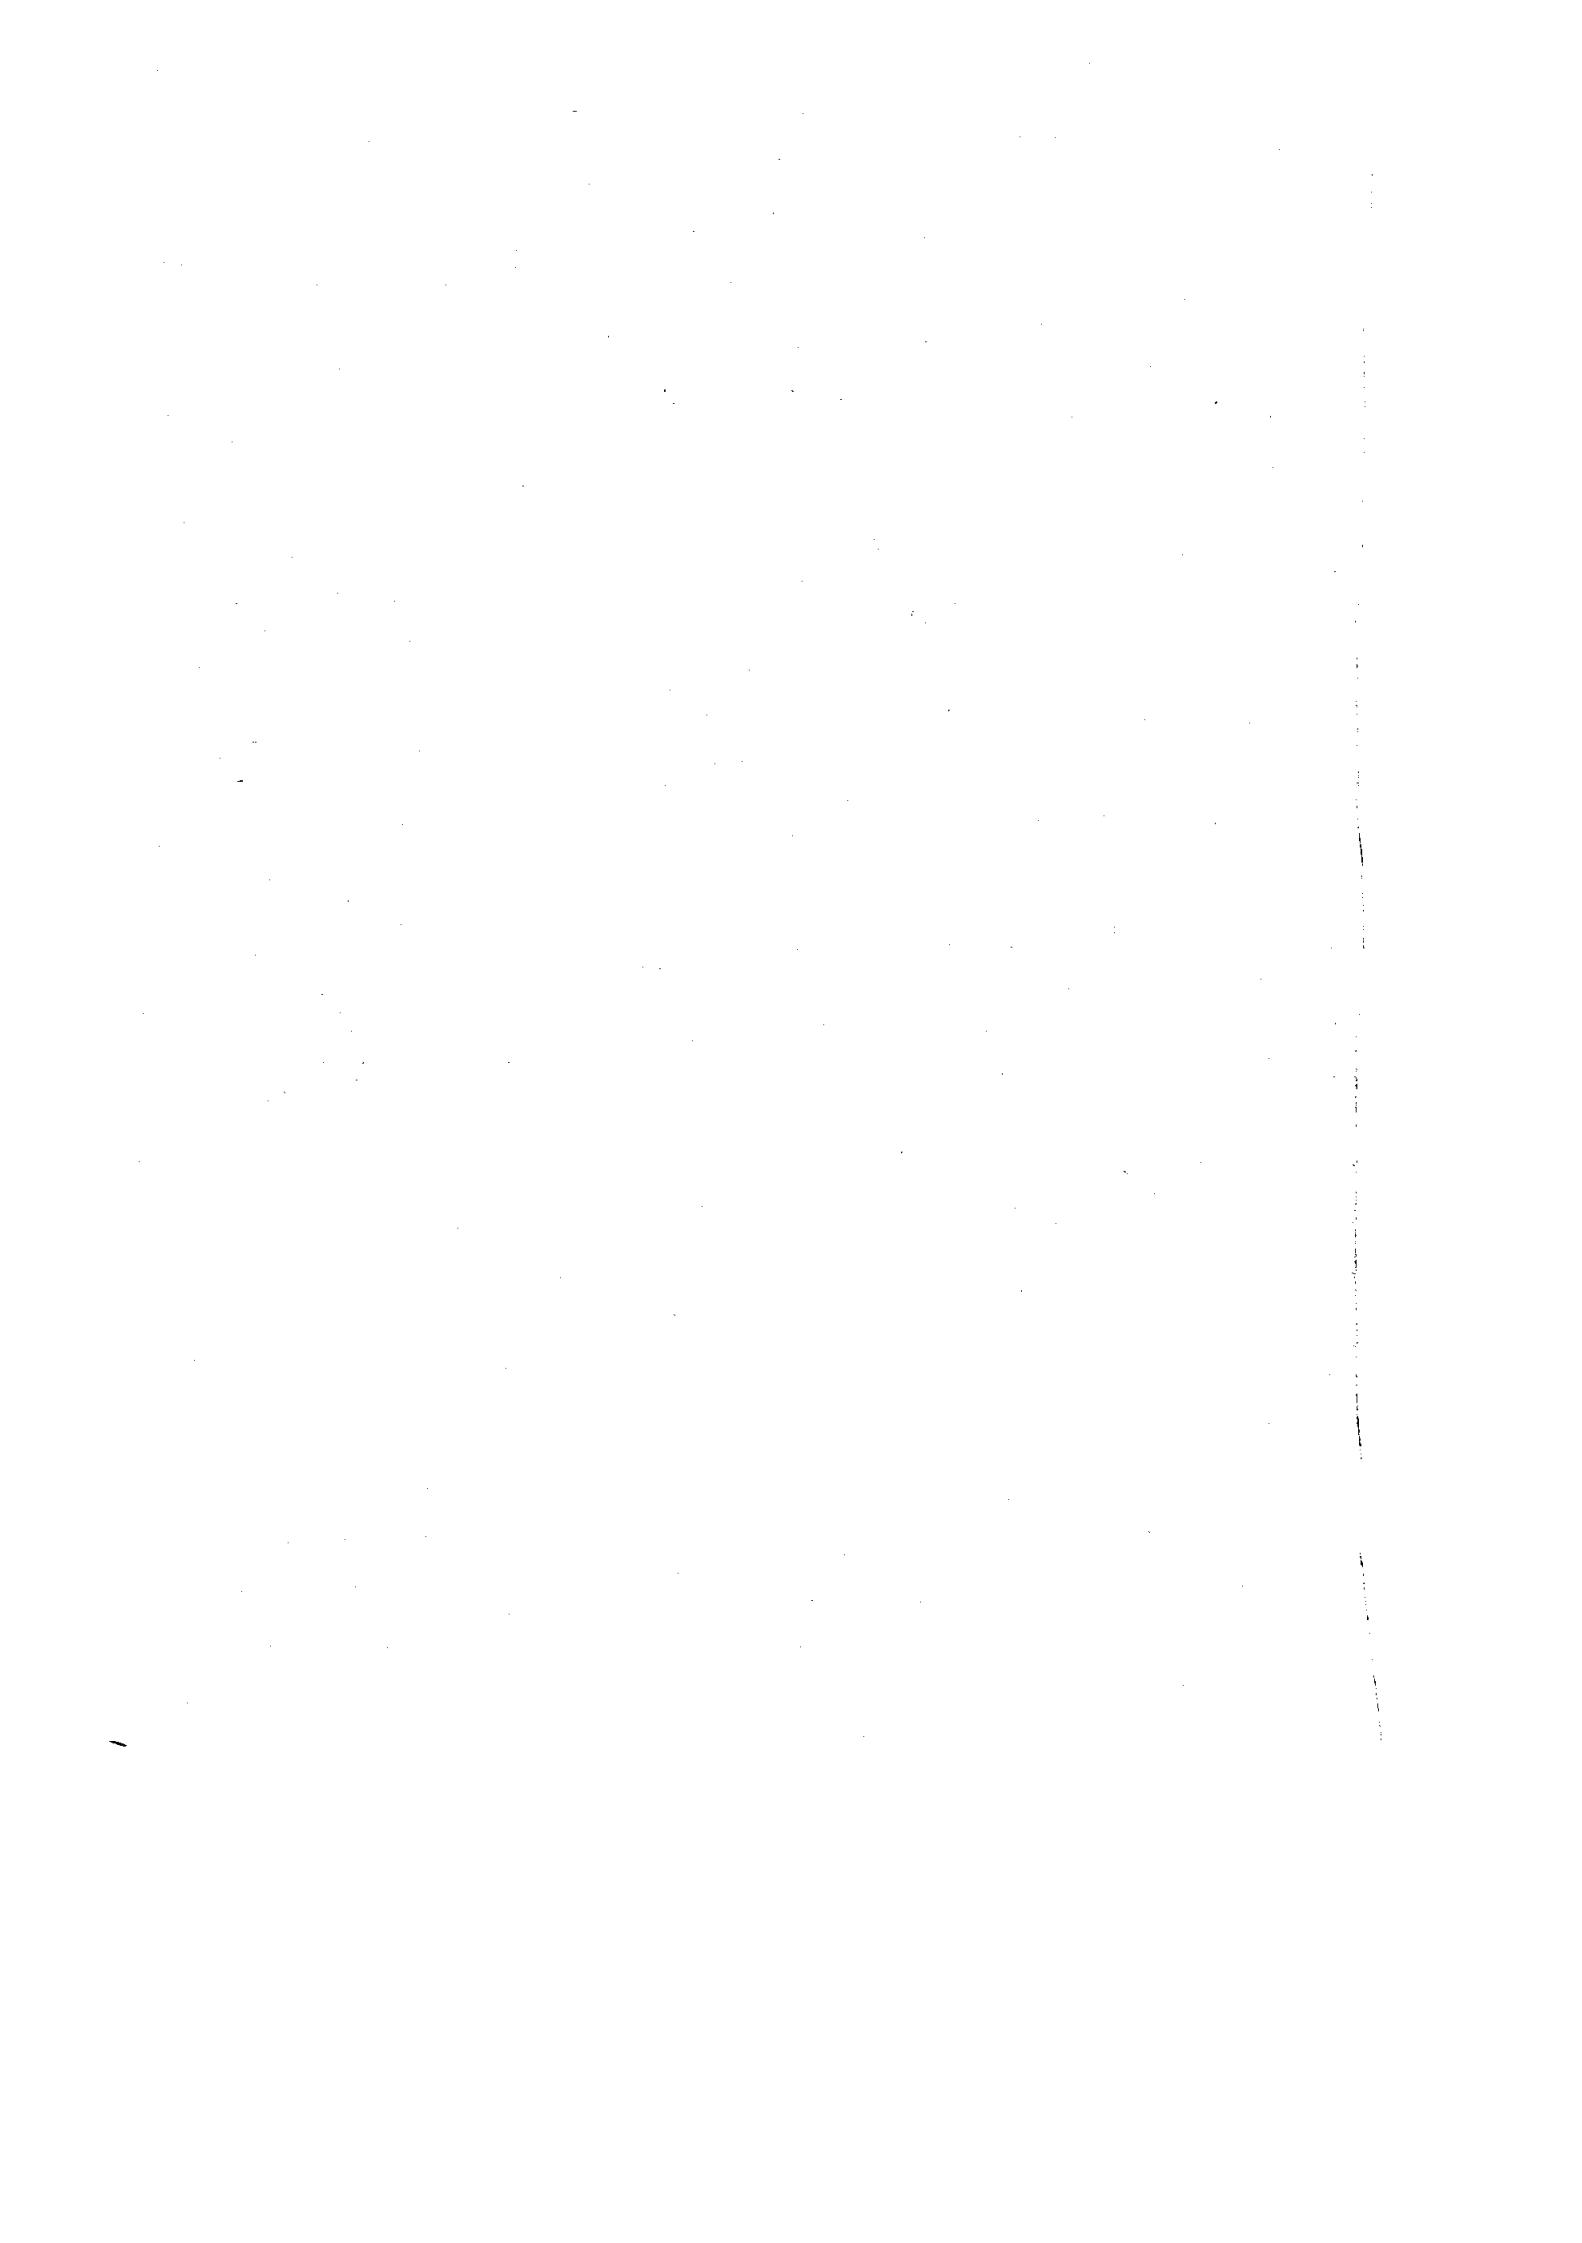

In water sector, primary focus areas for 2013-14 will be extending water network to both planned and un planned areas, arresting water leakages, full domestic metering, augmentation of production capacity implementation of SCADA and improving consumer convenience.

In Sewerage sector, critical areas of attention will be completing the Interceptor Sewer project and 3 new STPs, completion of rehabilitation of trunk sewers for optimum capacity utilization of all STPs, restricting untreated sewage flows into river Yamuna, and expansion of sewer network to unsewered areas.

Through the budget for financial year 2013-14, the above initiatives will be carried forward. These mammoth tasks can not be achieved without assistance and constructive suggestions from all the Hon'ble Board members. DJB is grateful for guidance of Hon'ble

Chairperson and Chief Minister whose vision has been our guiding light. I would be failing in my duty if I do not place on record our gratitude towards the Departments of Finance, Urban Development & Planning and Environment & Forest of the Government of NCT of Delhi and to the Ministry of Water Resources, Ministry of Environment & Forests, Ministry of Urban Development, and Department of Economic Affairs, Government of India for their support in achieving our goals.

**SUMMARY
OF
NON-PLAN BUDGET**

DJB supplies filtered water in bulk to and receives sewage in bulk for disposal from the NDMC and the Delhi Cantonment Board (MES). Accordingly, cost of water supply & sewage disposal is proportionately divided among NDMC, Cantonment Board and DJB as per guidelines in the Water Board Act and regulations thereof.

While cost of water supply & sewage disposal is recovered from NDMC and Cantonment Board in bulk as share cost, DJB levies water and sewerage charges from consumers in the MCD areas. Sewerage charges are recovered at the rate of 50 % of water charges as per approved policy.

Based on production at WTPs, the quantity of water produced in million litres is as follows :-

(Rs. Lac)

Particulars	Actual 2011-12	B.E. 2012-13	R. B. E. 2012-13	B.E. 2013-14
1. N.D.M.C.	45044	43650	43650	43650
