

DELHI JAL BOARD GOVT OF NCT OF DELHI
OFFICE OF THE MEMBER(W.S.)
VARUNALAYA KAROLBAGH NEW DELHI.

No. DJB/2004/Mem(W)/

(III)

Dated 6/2/04 ✓

SUBJECT:- TENDER CASES

The Tendering Cell are putting up the tender cases & the Technical Background notes before the Technical Committee highlighting the figures as contained in the justifications prepared by the office of EE Incharge of work, checked by the concerning circle office and finally by the Planning(Water)divisions. The decisions for the tender cases are normally taken with consideration of the justification of rates prepared by the department and quoted by the bidders.

In the recent, the tender cases have been discharged due to variation in the justification rates & quoted rates. It is seen that on reinvitation of the tenders the rates received are higher than the previous one, mainly due to sharp increase in the rates of M.S. plate by M/s SAIL, increase in rates of C.I. pipes on the basis of DGS&D Rate Contract and the rates of D.I. pipes approved in the DGS&D Rate Contract besides the increase in the price of the cement.

Recently the Technical Committee has recommended the discharge of the tenders on the basis of quoted rate being higher than the justification. CEO on 3-2-04 had a meeting which was attended by Member(W.S.), Member(Finance) & CE(C)VI and has desired to look into the justification part precisely with consideration of the market rates. The action has been necessitated due to non-consideration of the prevailing Market Rates at the time of preparation of justification by the division. It is felt necessary to frame a procedure as to what should be deciding factor in awarding the work while comparing justification prepared vis-à-vis quoted rates particularly when the market rate have changed abnormally during the processing of the case. All Chief Engineers are requested to assist the undersigned and put up their views at the earliest.
