It is brought to my notice that purchase of spares etc. / repair of equipments is being procured from the so called authorized dealers without invitation of tenders. Admittedly, tenders are not required in case of purchase of proprietary item from the manufacturer or his accredited dealer. But in the event purchase is made from an authorized dealer and there are number of authorized dealers / service centers at a station, it is always desirable that tenders restricted to authorized dealers are invited so that a competitive rate is obtained. Chief Engineers may please take note and ensure accordingly.
