INSTRUCTIONAL ORDER

As per decision of a Committee constituted for selection of material for various pipe lines to be used for water supply system in Delhi Jal Board, a circular was issued by SE(P)W vide No. DJB/SE(P)W/F1(T)/2004/38 dt. 13-1-04. According to this as per para i) for pipe size 100mm dia to 600mm dia-use of only CI/DI pipes is to be considered and as per ii) for 600mm dia to 1000mm dia -use of D.I./M.S. pipes to be considered. The Technical Committee decided use of only C.I./D.I. pipe for size 100mm dia to 500mm dia to be considered instead of 600mm dia size as mentioned in para i) and for size above 500 to 1000mm dia use of D.I./M.S. lined & coated is to be considered against for size 600to 1000mm dia as was mentioned in para ii) in view of constraints in availability of C.I. pipes of 600mm dia pipes. The other provisions of the said SE(P)W's Circular dt. 13-1-04 shall remain the same.

It has also been decided as under:-

1. Tenders will be invited with Bill of quantities prepared with both the optional materials. The justification shall also be prepared for both the options. However, the tenderer shall be required to quote only for the one option.
2. The lowest quoted rate/the project cost with any of the material shall be considered as the lowest evaluated tender.
3. The benchmark justification shall be the lowest out of the two for the purpose of comparing with the lowest tendered cost

In addition to above possibility of procuring C.I./D.I pipes centrally by the department as per requirement of different projects is to be explored by C.E.(C)VI.

The above is issued for compliance by all concerned.
