OFFICE OF THE MEMBER (WS/Dr)  
VARUNALAYA PH-II : KAROL BAGH ; NEW DELHI

No : DJB/Mem(WS/Dr)/2006/14 214-15/57670 Dated : 28.12.2006

CIRCULAR

During the meetings taken by C.E.O. (DJB) for monitoring works of Chief Engineers, it was felt that the issue of replacement of old pipe lines in the divisions and the issue of 3<sup>rd</sup> Party Inspection needed to be looked into afresh. Accordingly both the issues were discussed in a meeting with the Chief Engineers on 22.12.2006 and it was decided :-

1. Each division shall prepare a broad detail of water lines under its jurisdiction and identify the stretches required to be replaced during the next financial year. Such details shall be examined by the concerned Superintending Engineer and recommended as per its requirement to the concerned Chief Engineer. The Chief Engineer shall approve the annual programme of replacement of pipe lines. Normally the execution will be as per the approval by Chief Engineer. Deviation from the programme if any shall be allowed only by the concerned Chief Engineer. It is also decided that the replacement of pipe line should be planned by the Executive Engineers for the entire continuous length involved and there should not be bifurcation with a view to restrict the cost of the estimates within the financial limits of the division office. In fact consolidated estimates should be prepared for each locality. After completion of the work, a completion report shall be submitted by the division office to Mapping Cell with copy to Chief Engineer. The concerned Chief Engineer shall monitor this work in particular on regular basis.
2. Regarding 3<sup>rd</sup> Party inspection, it was the general observation that the rates being paid currently are on higher side and therefore, it is necessary to re-invite the tenders. Accordingly it was decided that Chief Engineer (Proj.) Water should re-invite the tenders dividing the works in the following three categories :-
  - i) Upto 10 Lacs.
  - ii) 10 Lacs to 100 Lacs.
  - iii) Above 100 Lacs.

  
(R. K. GARG)  
MEMBER (WS)

Chief Engineer (East/West/South/Central & North)  
Chief Engineer (Proj.)Water
