Dated: 16/5/08

INSTRUCTIONAL ORDER

It has come to the notice that block estimates are being prepared without consideration of adequate technical inputs, field verifications etc which results in substantial variation in the estimated cost and final awarded cost. Block estimates should normally be prepared only for major projects where it is not feasible to work out detailed design/BOQ at the initial stage such as projects related to WTP, UGR, BPS etc. In case of all other projects involving laying/replacement of transmission mains, peripheral mains and other pipe lines, detailed estimate considering feasible alignment, field verification, hydraulic design etc shall only be prepared.
