**INSTRUCTIONAL ORDER**

A notification regarding sale of treated effluent has already been published in the Newspapers on 18.01.2014 (copy enclosed). It has been noticed that filling points at STPs referred in the notification have not been installed so far. Many representations are being received for purchase of treated effluent. But, DJB is unable to sale treated effluent due to non-availability of filling points. Hence, the purpose of notification is defeated.

All concerned officers are, therefore, directed to install Filling Points at STP mentioned in the notification within a fortnight under intimation to this office.

Encl: As above.
