

OFFICE OF THE CHIEF ENGINEER (EAST)
DELHI JAL BOARD: GOVT. OF N.C.T. DELHI
222, VARUNALAYA PHASE-II, JHANDEWALAN, NEW DELHI

No.DJB/CE(East)/I.Order/2014/

856

Dated:22.4.2014

INSTRUCTIONAL ORDER

It is brought to my notice that when the maintenance staff execute the works of rectification of water leakage in peripheral/distribution water lines, no information is given to the operator of respective UGR/BPS.

The operator starts pumps as per the pre-decided scheduled time without knowing whether the work completed or not in such scenario a possibility of any mishappening with the workmen at site may not be ruled out due to releasing of water from UGR/BPS.

To avoid such situation as above all the maintenance EEs are directed to record the following in the register lies with the operator in respective UGR/BPS and intimation to the EE(E&M)WS also.

1. Name of work mentioning location where the work is going on.
2. Date and time of start of work and its tentative time of completion. In case work is not being completed within the tentative period mentioned above than again the maintenance staff will inform and record revised time of the completion of the work.
3. The operators will observe and follow the directions mentioned at S.No.2 earnestly and pumping shall be done accordingly.
4. The timing of supply of water will not be changed without the permission of respective SEs.

Order of the Engineer (E&M)

498

22/4/14

All SEs/EEs.
