

**DELHI JAL BOARD  
GOVT. OF NCT OF DELHI  
OFFICE OF THE MEMBER (WS)  
VARUNALAYA PH-II: KAROL BAGH, NEW DELHI-05**

No.F- 15 /DJB/M(WS)/2014/ 2090

Dated: 04.07.2014

**INSTRUCTIONS**

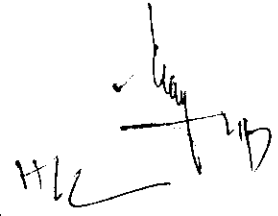

Delhi Transco Ltd. has raised the matter of damage to its number of 220 KV underground cables by various utilities working in the city. Damage to the cables caused even inadvertently results into disruption in power flows to a large no. of consumers / establishments and many times DJB's own water and sewerage installations have been affected due to these cable faults. As a responsible utility, we have also to ensure that while carrying out our infrastructure development or maintenance works due precautions are taken to protect the other services.

Chief Engineers are requested to direct the divisions to send prior information to all the other service providers including Delhi Transco Ltd. immediately at the time of seeking road cutting permissions from the land owning agencies and further followed by an intimation to be sent before start of the work at site by DJB. It is emphasized that close liaison with other agencies who are responsible for maintaining their services such as Gas, telephones lines, power cables, drains, Horticulture etc will ultimately benefit DJB in achieving successful accomplishment of its projects.
