NEW DELHI-110005

No. F-1(2)/M(Dr)/2016/ 1128 - 1139

Dated: 02.03.2016

INSTRUCTIONS

It has been brought to my notice that in some of the maintenance divisions, tender conditions for works of desilting have been altered recently and the same is resulting into limited participation of the prospective bidders. It has been pointed out that in the earlier tenders; there was no specific pre-condition about the super sucker machine to have provision of CCTV camera also.

ole
H/c
All are aware that activity of verification of inner condition of the sewer pipelines through CCTV camera is generally done by engaging separate agency by the main contractor. With passage of time many such agencies have come up in the market to offer CCTV services and therefore there is no need to make CCTV provision mandatory in the super sucker equipment. All concerned are directed not to introduce such new tender conditions which will restrict the participation of prospective bidders in the tenders.
