Office Order No. 4

Dated: 25.05.2016

OFFICE ORDER

CPCB has revised its guidelines in respect of treated effluent parameters at the STPs. As per the revised standards BOD & TSS shall be ≤ 10 mg/ltr, Fecal Coliform less than 230 MPN /100 ml, Nitrogen 10 mg/ltr and Phosphorus < 2 mg/ltr. While the new plants are being proposed in accordance with the revised guidelines, there is need to rehabilitate or upgrade all the old/existing STPs which were based on the old CPCB guidelines prevalent at the time of their sanction/construction. For achieving the same, a committee comprising of the following officers has been constituted to conduct the performance audit of the STP :

1. CE(Dr)Proj-II Chairman
2. CE(SDW)
3. SE(Dr)Proj.E&NE
4. SE(SDW)IV Nodal Officer
5. DIR (T&QC)
6. One representative of NEERI
7. One representative from Expert agencies associated with construction of STPs in DJB i.e. M/s. Veolia Water India & M/s. VA Tech WA Bag.

contd.....2..

-: 2 :-

The committee will visit all the STPs to identify the works required to be undertaken to upgrade the plants to meet the new guidelines in respect of treated effluent parameters. The committee will also give its recommendations regarding the advance technology to be adopted, make the plant self sustainable in the field of power consumption and also address the critical issue of sludge management.

The committee will submit its report in two months time.
