

DELHI JAL BOARD
OFFICE OF DIRECTOR OF REVENUE
VARUNALAY PHASE:II, KAROL BAGH, NEW DELHI-110005.

No.F.DJB/DOR/Dev.Ch./Unauth/14/7319 to 7399 Dated : 27.05.2014

INSTRUCTIONAL ORDER

Recently, a large number of cases for issuance of public notice in respect of Water Development Charges and Sewer Development Charges for the system laid in various unauthorized regularized colonies have been approved by the Competent Authority. In some cases, it was observed that the system was laid way back and therefore, chances of unauthorized connections cannot be ruled out. As the system has been handed over to the maintenance divisions, the concerned Executive Engineers as well as ZROs are directed to give such public notices wide publicity in the area which it covers and persuade/motivate the residents to take legal connections and avoid payment of interest. Efforts may also be made to take area RWA into confidence emphasizing that taking authorized water and sewer connection will not only result in avoiding penal action as per provision of Delhi Water Board Act, 1998 but will also improve environmental conditions in their area. Wherever necessary camps may be organized with the support of RWA in the area. Further, area MI/MR may be directed to ensure that wherever unauthorized connections are found, notices needs to be issued, followed by challaning and disconnection if the defaulter does not come forward to get his unauthorized connection regularized.

(H.V. TANDON)
