Vulnerable Water Deficit Areas						
Name of Colony	Remedial Action	New Water Line / Inter Connection proposed	New Tube Well to be commissioned	Rationalization of water by Valve Regulation	New UGR Commissioned/ to be commissioned since summer 2025	Timeline
Nil	Nil	Nil	Nil	Nil	Nil	Nil

Vulnerable Water Contamination Areas						
Name of Colony	Remedial Action	New Water Line	Inter connection for removal of dead end	Replacement of Water line/ Connection	Sewer system improvement desilting	Timeline
Nil, some local contamination complaints are being received which will be redressed immediately as and when received.	NIL	NIL	NIL	NIL	NIL	NIL

Vulnerable Sewer Over Flow Areas					
Name of Colony	Remedial Action	Replacement of Sewer line	Desilting/ removal of dead end	New Sewer Line	Timeline
Shakurpur Village, Kapil Vihar, Sri Nagar, Raja Area Entire Kohat enclave ward and 70% of Shakurpur ward	Peripheral sewer line of this area is from Trinagar AC-16 to AC-15 to Rohini AC-13 and terminate in Haiderpuri SPS in Rithala AC-6. Its route is more than 5Kms and it has never been desilted thoroughly at a time. Most upstream area in Trinagar AC is worst affected , particularly in rainy season. However 14 nos of trollies are operating round the clock there. (A) SHORT TERM :- to operate the sewage trollies with standby arrangement and A portable / movable pump set mounted on tractor etc system must be available to provide the immediate relief as the most of the rain water goes to sewer line . (B) LONG TERM:- it is proposed to construct SPS in route to its peripheral sewer line whether in Trinagar AC or in Shakurbasti AC. Trinagar AC sewage level never go down even after Haiderpuri SPS level becomes zero because its effect does not reach to upstream area.	Nil	Nil	Nil	Nil
