| Squattered Resettlement colonies of Pocket-11, Sector A-6 Narela | For short term solution, the water supply of these area and adjoining areas is being rationalized by operating sluice valves and making interconnections in existing system. In addition to above the estimate of re boring of tubewells for Pkt-11 sector A-6 is already prepared amounting to Rs 10.85 lacs/- and work is in progress. For long term solution Commissioning of Palla MBR and augmentation of water to Narela CT-1 will improve the water in deficit area. | No                                         | Re boring of 01 nos. tubewell is in progress. | Yes, already regulated.                      | Palla MBR commissioned                                     | 31.03.2026 |
| Metro vihar Phase-I & II                                         | For short term solution, the water supply of these area and adjoining areas is being rationalized by operating sluice valves and making interconnections in existing system. For long term solution Commissioning of Palla MBR and augmentation of water to Narela CT-1 will improve the water in deficit area.                                                                                                                                                             | Yes                                        | No                                            | Yes, already regulated.                      | Palla MBR commissioned                                     | 31.03.2026 |
