No. DJB/CE(P&D)/2025/211 to 220

Date: 29/09/2025

Circular

Subject: Amendments in General Condition of Contracts (Technical Eligibility criteria).

The Board in its 174th meeting vide Resolution No. 1497 under Item No. T-500 has approved the proposal for amendments in the General Conditions of Contract (GCC) - Technical Eligibility Criteria of the following:

Part A: Amendments in Technical Eligibility Criteria

S. No.	Existing reference of Clause	Existing	Proposal
1.	Technical Eligibility criteria	<u>1) For construction of head works/intake.</u> The bidder should have experience of work contract, including testing & commissioning successfully i.e. such work contracts awarded and commissioned successfully during the last seven years ending last day of month previous to the one in which tenders are invited are as under: a) One similar completed & commissioned work of aggregate cost not less than the amount equal to 80% of the estimated cost put to tender or more OR b) Two similar completed & commissioned works of each costing not less than the amount equal to 60% of the estimated cost put to tender OR c) Three similar completed & commissioned works of each costing not less than the amount equal to 40% of the estimated cost put to tender. The value of executed work(s) shall be brought to the current costing level by enhancing the actual value of work at a simple rate of 7% per annum; calculated from the date of completion of work to the previous day of the last day of submission of tenders.	<u>1) For construction of head works/intake.</u> The bidder should have experience of work contract, including testing & commissioning successfully i.e. such work contracts awarded and commissioned successfully during the last ten years ending last day of month previous to the one in which tenders are invited are as under: a) One similar completed & commissioned work of aggregate cost not less than the amount equal to 80% of the estimated cost put to tender or more OR b) Two similar completed & commissioned works of each costing not less than the amount equal to 60% of the estimated cost put to tender OR c) Three similar completed & commissioned works of each costing not less than the amount equal to 40% of the estimated cost put to tender. The value of executed work(s) shall be brought to the current costing level by enhancing the actual value of work at a simple rate of 7% per annum (without compounding) ; calculated from the date of completion of work to the previous day of the last day of submission of tenders.

	<u>2.(I) In case of Construction of WTP</u> The bidder should have experience of construction/testing/ commissioning of WTP i.e. such work contracts awarded and commissioned successfully during the last seven years ending last day of month previous to the one in which tenders are invited are as under: (a) one work of minimum 80% capacity (MLD) commissioned OR (b) Two works of minimum 60% capacity each (MLD) commissioned OR (c) Three works of minimum 40% capacity (MLD) commissioned each <u>2.(II) In case of Construction of WWTP/STP</u> The bidder should have experience of construction/testing/ commissioning of WWTP or STP i.e. such work contracts awarded and commissioned successfully during the last seven years ending last day of month previous to the one in which tenders are invited are as under: (a) one work of minimum 80% capacity (MLD) commissioned OR (b) Two works of minimum 60% capacity each (MLD) commissioned OR (c) Three works of minimum 40% capacity (MLD) commissioned each <u>3) In case of Construction of BPS/SPS</u> The bidder should have experience of construction/testing/ commissioning of WTP or WWTP or BPS or SPS i.e. such work contracts awarded and commissioned successfully during the last seven years ending last day of month previous to the one in which tenders are invited are as under: (a) one work of minimum 80% capacity (MLD) commissioned OR (b) Two works of minimum 60% capacity each (MLD) commissioned. OR (c) Three works of minimum 40% capacity each (MLD) commissioned	<u>2. In case of Construction of WTP/WWTP</u> The bidder should have experience of construction/testing/ commissioning of WTP or WWTP i.e. such work contracts awarded and commissioned successfully during the last ten years ending last day of month previous to the one in which tenders are invited are as under: (a) one work of minimum 80% capacity (MLD) commissioned OR (b) Two works of minimum 60% capacity each (MLD) commissioned OR (c) Three works of minimum 40% capacity (MLD) commissioned each <u>3) In case of Construction of BPS/SPS</u> The bidder should have experience of construction/testing/ commissioning of WTP or WWTP or BPS or SPS i.e. such work contracts awarded and commissioned successfully during the last ten years ending last day of month previous to the one in which tenders are invited are as under: (a) one work of minimum 80% capacity (MLD) commissioned OR (b) Two works of minimum 60% capacity each (MLD) commissioned. OR (c) Three works of minimum 40% capacity each (MLD) commissioned
--	--	---

2.	4) For laying of pipelines GENERAL CONDITIONS The bidder is required to have experience of such works either in water or sewerage sector i.e. such work contracts awarded and commissioned successfully during the last seven years ending last day of month previous to the one in which tenders are invited are as under: a) One completed commissioned work & of pipeline laying of cost not less than the amount equal to 80% of the estimated cost put to tender or more OR b) Two completed commissioned works & of pipeline laying of each costing not less than the amount equal to 60% of the estimated cost put to tender OR c) Three completed & commissioned works of pipeline laying of each costing not less than the amount equal to 40% of the estimated cost put to tender The value of executed work(s) shall be brought to the current costing level by enhancing the actual value of work at a simple rate of 7% per annum; calculated from the date of completion of work to the previous day of the last day of submission of tenders.	4) For laying of pipelines GENERAL CONDITIONS The bidder is required to have experience of such works either in water or sewerage sector i.e. such work contracts awarded and commissioned successfully during the last ten years ending last day of month previous to the one in which tenders are invited are as under: a) One completed commissioned work & of pipeline laying of cost not less than the amount equal to 80% of the estimated cost put to tender or more OR b) Two completed commissioned works & of pipeline laying of each costing not less than the amount equal to 60% of the estimated cost put to tender OR c) Three completed & commissioned works of pipeline laying of each costing not less than the amount equal to 40% of the estimated cost put to tender The value of executed work(s) shall be brought to the current costing level by enhancing the actual value of work at a simple rate of 7% per annum (without compounding); calculated from the date of completion of work to the previous day of the last day of submission of tenders. PARTICULAR CONDITIONS The bidder is required to have experience of such works similar to the proposed work as applicable in water or sewerage sector as under: 2/3rd size of maximum diameter mentioned in BOQ in a minimum length of 500 meter
3.	5) Only trenchless /micro tunneling work The bidder is required to have experience of such works either in water or sewerage sector of laying of pipeline by trenchless method i.e. such work contracts awarded and commissioned	5) Only trenchless /micro tunneling work The bidder is required to have experience of such works either in water or sewerage sector of laying of pipeline by trenchless method i.e. such work contracts awarded and

	successfully during the last seven years ending last day of month previous to the one in which tenders are invited are as under: a) One work completed & commissioned of minimum 80% length or more OR b) Two works completed & commissioned of minimum 60% length each or more OR c) Three works completed & commissioned of minimum 40% length each or more 6) Works comprising of open cut and trenchless/ micro tunneling works <u>GENERAL CONDITIONS</u> The bidder is required to have experience of such works either in water or sewerage sector i.e. such work contracts awarded and commissioned successfully during the last seven years ending last day of month previous to the one in which tenders are invited are as under: a) One completed & commissioned work of pipeline laying of cost not less than the amount equal to 80% of the estimated cost put to tender or more OR b) Two completed & commissioned works of pipeline laying of each costing not less than the amount equal to 60% of the estimated cost put to tender OR c) Three completed & commissioned works of pipeline laying of each costing not less than the amount equal 40% of the estimated cost put to tender The value of executed work(s) shall be brought to the current costing level by enhancing the actual value of work at a	commissioned successfully during the last ten years ending last day of month previous to the one in which tenders are invited are as under: a) One work completed & commissioned of minimum 80% length or more OR b) Two works completed & commissioned of minimum 60% length each or more OR c) Three works completed & commissioned of minimum 40% length each or more Particular Experience: The agency should have completed one work of pipe of 2/3d of maximum dia in proposed scope of work in a length at least for 500 meters through trenchless technology with single shot of at least 60 metre length. 6) Works comprising of open cut and trenchless/ micro tunneling works <u>GENERAL CONDITIONS</u> The bidder is required to have experience of such works either in water or sewerage sector i.e. such work contracts awarded and commissioned successfully during the last ten years ending last day of month previous to the one in which tenders are invited are as under: a) One completed & commissioned work of pipeline laying of cost not less than the amount equal to 80% of the estimated cost put to tender or more OR b) Two completed & commissioned works of pipeline laying of each costing not less than the amount equal to 60% of the estimated cost put to tender OR c) Three completed & commissioned works of pipeline laying of each costing not less than the amount equal 40% of the estimated cost put to tender

	simple rate of 7% per annum; calculated from the date of completion of work to the previous day of the last day of submission of tenders.	The value of executed work(s) shall be brought to the current costing level by enhancing the actual value of work at a simple rate of 7% per annum(without compounding); calculated from the date of completion of work to the previous day of the last day of submission of tenders. PARTICULAR CONDITIONS The bidder is required to have experience of such works either in water or sewerage sector as under: 2/3RD size of maximum diameter in BOQ for trenchless work in single shot of at least 60 meter length.
4.	Sewer rehabilitation/ Deep sewer work/ Peripheral/Trunk sewer: GENERAL CONDITIONS The bidder is required to have experience of such works either Sewer rehabilitation/ Deep sewer work/ Peripheral/Trunk sewer i.e. such work contracts awarded and commissioned successfully during the last seven years ending last day of month previous to the one in which tenders are invited are as under: a) One commissioned completed & work of sewer rehabilitation of cost not less than the amount equal to 80% of the estimated cost put to tender or more. OR b) Two completed commissioned works & of sewer rehabilitation of each costing not less than the amount equal to 60% of the estimated cost put to tender OR c) Three completed & commissioned works of sewer rehabilitation of each costing not less than the amount equal to 40% of the estimated cost put to tender. The value of executed work(s) shall be brought to the current costing level by enhancing the actual value of work at a simple rate of 7% per annum; calculated from the date of completion of work to the previous day of the last day of submission of tenders.	Sewer rehabilitation/desilting of sewer line/cleaning of sewer line/ Deep sewer work/ Peripheral/Trunk sewer: GENERAL CONDITIONS The bidder is required to have experience of such works either Sewer rehabilitation/ Deep sewer work/ Peripheral/Trunk sewer i.e. such work contracts awarded and commissioned successfully during the last ten years ending last day of month previous to the one in which tenders are invited are as under: a) One commissioned completed & work of sewer rehabilitation of cost not less than the amount equal to 80% of the estimated cost put to tender or more. OR b) Two completed commissioned works & of sewer rehabilitation of each costing not less than the amount equal to 60% of the estimated cost put to tender OR c) Three completed & commissioned works of sewer rehabilitation of each costing not less than the amount equal to 40% of the estimated cost put to tender. The value of executed work(s) shall be brought to the current costing level by enhancing the actual value of work at a simple rate of 7% per annum(without compounding); calculated from the date of completion of work to the

			previous day of the last day of submission of tenders. PARTICULAR CONDITIONS 1. Experience of successfully completing at least 1(one contract of SEWER NETWORK system with minimum diameter and length as D and L in single work where, D-2/3 rd diameter of maximum pipe diameter (in mm) as proposed in the bid. L- 40% of proposed length of maximum diameter as specified in the bid
5		Water Treatment Plant(WTP) <u>Particular eligibility criteria:</u> The bidder should have experience of work contract, including testing & successfully commissioning, One work of minimum capacity of 40% or more for specialized treatment necessary to treat particular parameters (like ammonia, metals, fluoride, sludge handling etc) The above works should have been commissioned in the last 7 years as on date of Publication of NIT. Note: The criteria will be applicable in case of advance treatment, particular process & specific parameters or constraints etc. needs to be tackled in addition to General parameters of raw water quality. (e.g. Ammonia, Iron, heavy metals, high turbidity, recycling of filter backwash & space constraints if any etc). For SCADA experience the bidder should have experience of successfully completing 1 (One) Similar type of project of 40% of capacity of plant (WTP) as applicable. O & M experience of one year for minimum 40% of the plant capacity. Waste water Treatment Plant (WWTP) <u>Particular eligibility criteria :</u> The bidder should have experience of work contract including testing & successfully commissioning one work of minimum capacity of 40% or more for advance treatment necessary treat particular parameters as given in note below. The works should have been commissioned in the last 7 years as on	Water Treatment Plant(WTP)/ Waste water Treatment Plant (WWTP) <u>Particular eligibility criteria:</u> The bidder should have experience of successful operation and maintenance of minimum 40% of capacity of WTP/WWTP as applicable. The work should have been done for at least Two (2) consecutive years in the last 10 years as on date of publication of NIT as applicable.

		date of Publication of NIT. Note: The criteria will be applicable in advance/tertiary treatment, & specific particular process parameters or constraints etc. needs. to be tackled in addition to General parameters of influent effluent quality. (e.g. Ammonia, Iron, heavy metals, turbidity, BOD, TDS, COD. sludge handling & space constraints if any etc). In case of wastewater treatment plant having power generation with biogas the eligible capacity in installed KWH with successful operations for one year of minimum 40% of the generation capacity proposed in bid document For SCADA experience the bidder should experience of successfully have completing 1 (One) Similar type of project of 40% of capacity of (WTP/WTP/PS) applicable plant as applicable. and The bidder should have experience of successful operation maintenance of minimum 40% of capacity. The work should have been done for at least 3 consecutive years in the last 7 years as on date of publication of NIT.	
--	--	--	--

Part B: One time relaxation in following GCC clause applicable upto 30.06.2026 only.

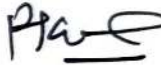

S.No	Existing reference of Clause	Existing	Proposal
1	Technical Eligibility criteria	Sewer rehabilitation/ Deep sewer work/ Peripheral/Trunk sewer: Eligibility criteria : Same as in point no.4 (above)	Sewer rehabilitation/desilting of sewer line/cleaning of sewer line / Deep sewer work/ Peripheral/Trunk sewer: Eligibility criteria : The bidder as per their tendering limit in appropriate category is required to have similar nature of work experience i.e. rehabilitation/ desilting/cleaning of trunk sewer /peripheral lines of 2/3rd of max dia or more in the minimum length of 300 meter in a single completed works during the last 10 years ending last day of month previous to the one in which tenders are invited.

- The financial and technical credentials of all bidders will be considered for qualification for works above Rs. 3 Cr and there will no restriction in adopting the same for works less than Rs. 3 Cr.

3. Since many projects are envisaged in the Delhi Jal Board (DJB) such as in-situ treatment of drains etc for which enlisted contractors have no or limited expertise, the approval of one time relaxation in eligibility criteria (if required) for such work may be approved by the following committee in future and the Board may be apprised about approval of such cases.

1.	CEO, DJB	Chairman
2.	Member(Finance)	Member
3.	Member(Admin)	Member
4.	Member (Water)/CEN(Water)	Member
5.	Member(Drainage)/CEN(DR)	Member
6.	Concerned Chief Engineer	Convener
Note: Committee can co-opt any additional member if required.		

This will supersede all previous relevant circular/corrigendum issued in the matter.
